KISHAN KUMAR MAURYA

SAIDRAJA-CHANDUALI , UTTAR PRADESH | +91 9335515138 | kishanmaurya232110@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Motivated Computer Science and Engineering student with hands-on experience in Full Stack Web Development using the MERN stack. Skilled in building responsive web applications, developing RESTful APIs, implementing authentication, and integrating real-time communication. Strong problem-solving abilities with a passion for developing scalable, user-focused applications and continuously learning new technologies.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science Engineering - (2023 – 2027)

Gurukula Kangri (Deemed to be University), Haridwar, Uttarakhand

CGPA: 8.23 / 10 (up to Semester VI)

Class XII – Uttar Pradesh Board (UPMSP)

Year of Passing: 2022

Percentage: 69%

Class X – Uttar Pradesh Board (UPMSP)

Year of Passing: 2020

Percentage: 86%

TECHNICAL SKILLS

Language: Python, C++, JavaScript

Frontend : HTML, CSS, Tailwind CSS, React

Backend : Node.js, Express.js

Database: MySQL, MongoDB

Tools : GitHub, VS Code

SKILLS

Certificates -

- SWAYAM-NPTEL (The Joy of Computing Using Python)
- Infosys (Computer Vision 101), (Data Science)
- Forage (Software Engineering Job Simulation), (Data Visualisation: Empowering Business with Effective Insights)
- IBM SkillsBuild(Cloud Computing Fundamental)
- Awards/Activities: Actively participated in the college events and management team.

Computer: - Microsoft Excel, PowePoint, Canva
Language : - English, Hindi

PERSONAL PROJECT

Real-Time Interview Platform React.js, Node.js, Express.js, MongoDB, Socket.IO, JWT

- Developed a real-time collaborative interview platform featuring secure JWT authentication, interview room management, and live code sharing.
- Implemented Socket.IO for real-time communication and developed RESTful APIs with a responsive React.js frontend and MongoDB integration.

Student Judge (Online Coding Platform) React.js, Node.js, Express.js, MongoDB

- Built a web-based coding platform enabling users to solve programming problems and evaluate code submissions against automated test cases.
- Integrated a code execution API/compiler for code evaluation, multi-language support, and secure user authentication.
- Developed a responsive interface to improve the coding and problem-solving experience.

Smart Attendance System using Face + Location |React.js, Node.js, Express.js, MongoDB, OpenCV

- Developed a smart attendance system designed to automate attendance marking using face recognition and location verification.
- Integrated computer vision and webcam functionality to support automated identity verification and contactless attendance tracking.
- Built a web-based interface with a Node.js/Express.js backend and MongoDB for attendance data management.
